

# DI2.4: PROMISE Dissemination Report

Written by: Lutz Rabe, BIBA

DELIVERABLE NO	DI2.4
DATE	May 15 <sup>th</sup> 2007
WORK PACKAGE NO	WP I2
VERSION NO.	0.8
ELECTRONIC FILE CODE	di2-4_dissemination report_m30_v0.8.doc
CONTRACT NO	507100 PROMISE A Project of the 6th Framework Programme Information Society Technologies (IST)
ABSTRACT:	This deliverable describes the PROMISE dissemination activities of the project period M24 to M30 including the planned activities.

STATUS OF DELIVERABLE			
ACTION BY DATE (dd.mm.yy			
SUBMITTED (author(s))	Lutz Rabe	22.05.2007	
VU (WP Leader)	Dimitris Kiritsis	22.05.2007	
APPROVED (QIM)	Dimitris Kiritsis	22.05.2007	

## **Revision History**

## **Table of Contents**

1	INTRODUCTION	3
2	PUBLICATIONS AND PRESENTATIONS	4
	2.1 Industrial Journals	4
	2.2 RESEARCH REPORTS	
	2.3 JOURNAL PAPERS AND CONFERENCE PROCEEDINGS	
	2.4 Presentations	6
	2.5 FORESEEN FOR PUBLICATION	7
	2.5.1 Book editions	
3		
	3.1 CONFERENCE SESSIONS AND WORKSHOPS	
	3.2 TRADE FAIRS AND INNOVATION CENTRES	9
	3.3 PLANNED PROMISE SESSIONS AND WORKSHOPS	
4	PROMISE WERSITES	

## 1 Introduction

In this report the dissemination activities of the PROMISE project will be presented from project month 24 up to project month 30. This includes publications and presentations for scientific conferences and journals and publications, which are foreseen for presentation and publication.

# **2** Publications and presentations

## 2.1 Industrial Journals

#### 2.5 Foreseen for publication

Currently there are about eleven papers submitted and accepted for the International conference on Product Lifecycle Management (as listed below) which results in two planned sessions for the PROMISE project. Moreover PROMISE partners have submitted articles for publication in the RFID-Book prepared by the CERP-Project which provides a structured overview of RFID use and research in Europe. Articles are based on the papers presented on the EU RFID FORUM 2007 as described in the table above.

#### 3 PROMISE sessions, workshops, national information days

#### 3.1 Conference Sessions and workshops

No events performed during the considered period.

#### 3.2 Trade fairs and innovation centres

No events performed during the considered period.

#### 3.3 Planned PROMISE sessions and workshops

Academic dissemination will continue. There are already two planned sessions at two important international events:

- Two PROMISE Sessions on the International Conference on Product Lifecycle Management, PLM-07 in Milano, Italy (http://www.plm-conference.org/index.php?section=47)
- Joint Session with DYNAMITE on the Second World Congress on Engineering Asset Management and the Fourth International Conference on Condition Monitoring, WCEAM CM 2007 in Harrogate, United Kingdom

#### 4 PROMISE websites

Based on different focuses of the project dissemination activities the PROMISE consortium currently operates tree websites. Two of them are providing public content as described in the following.

The PROMISE project started with the website <a href="www.promise.no">www.promise.no</a> which was originally set up as a common platform to support beside others project dissemination in a broad sense. With an increase of content and pages over the time the concept of this site matured with respect to the demands of the consortium and in particularly the academic audience. Consequently the focus of this site was narrowing down. To also cover the interests of industrial audience the website <a href="www.promise-plm.com">www.promise-plm.com</a> was set up.

Among other things the <u>www.promise.no</u> website provides an overview on the project publications (deliverables, paper, presentations, etc) and events (see also Figure 1) related to the project such as conferences, information days etc.

Figure 1: www.promise.no / important events

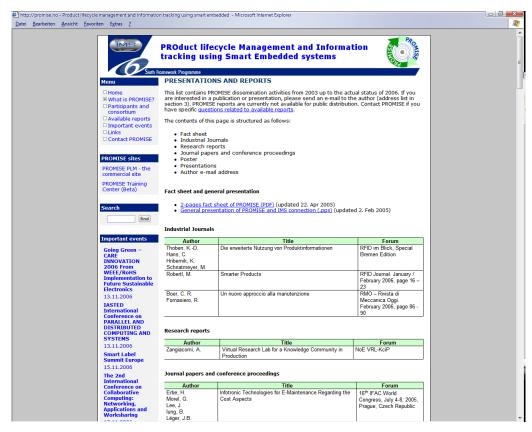

Figure 2: Figure 1: www.promise.no / publications

The www.promise-plm.com website concentrates mainly on the dissemination of the exploitation related aspects of the project results. Consequently the focused group of users is different from the group of users mentioned for the www.promise.no site. Among others the practical aspects of the implementation of PROMISE within the project but also without the project are presented (see also Figure 3).

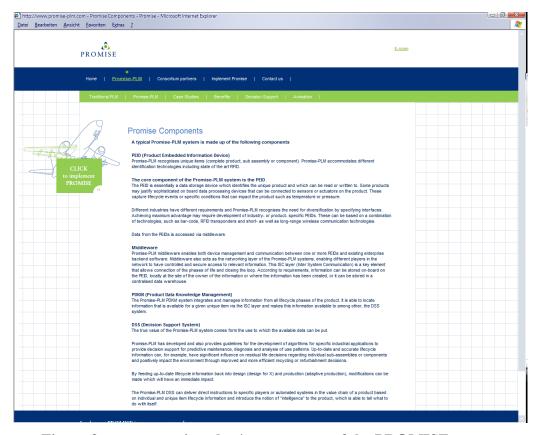

Figure 3: www.promise-plm / components of the PROMISE system
