Plan for Use and Dissemination of Foreground

Use and dissemination of foreground during the project lifetime

E*CARE project included several tools for dissemination of project results to EURAXESS network and to the interested stakeholders in research, policy and industry.

National Seminars

8 national seminars were carried out in all partners' countries during the 3rd project year with the objective to launch a national debate on the researchers' career and mobility obstacles and the best practices. During these seminars partners presented national problems for researchers' career and mobility showed in their National reports.

Final Conference

The conference objective was to raise the awareness on EU policy and activities for creating a European labour market for researchers, and to present the project results to a larger group of stakeholders. The conference audience included identified EURAXESS members, researchers and managers from academia and industry, university professors, policy makers, representatives of NGOs, local authorities, FP7 People NCPs, young researchers, etc.

Dissemination and publication of materials

The activities of this task could be grouped in two main areas – preparing project dissemination tools, and increasing the visibility of the project and its results among interested stakeholders.

Project dissemination tools

The project team used different tools like creation of a website, logo, poster and a leaflet for the project needs; various PPPs were prepared for number of events.

Increasing the project visibility

During the project period various events were visited and other were initiated as an opportunity to provide information about the project goals and objectives and upon preparation of the survey analysis about its results too. A number of publications were made for dissemination of E*CARE survey results.

Use and dissemination of foreground - table of scientific publications

Table A: LIST OF SCIENTIFIC (PEER REVIEWED) PUBLICATIONS, STARTING WITH THE MOST IMPORTANT ONES								
NO.	Title	Main author	Title of the periodical or the series	Number, date or frequency	Publisher	Place of publication	Year of publication	Relevant pages
1	Challenges for industry-academia networking in Europe	Gourova E., K.Anguelieva	Science	4	Union of Scientists in Bulgaria	Bulgaria	2010	8
2	Bulgarian Researchers' Mobility and Career Development	L.Ivancheva, E.Gourova	Educational and Science Policy Strategies	1	Bulgarian Academy of Sciences	Bulgaria	2009	14

With regard to scientific publications published before or after the final report, such details/references and an abstract of the publication must be provided to the Commission at the latest two months following publication. Furthermore, an electronic copy of the published version or the final manuscript accepted for publication shall also be provided to the Commission at the same time for the purpose of publication by the Commission if this does not infringe any rights of third parties.

Plan for use and dissemination of foreground after end of the project

During the project lifetime the project team efforts were focused on preparation of the tools for dissemination the results and publication of survey results. The team plans to use the following tools for further dissemination of the project outcomes:

Project website

It continues to provide on-line information about the project. Based on the project results of the EURAXESS E*CARE Think-Tank the team developed a forum for identifying skills, competencies, sharing experience and creation of partnerships among the EURAXESS members using the. <http://www.ecare-project.eu/51DA9643.en.aspx>

Project brochure

The E*CARE leaflet in both versions - one focused on project goals and objectives and another one oriented towards project results and impact is printed and spread among partners for dissemination at events. The leaflets are uploaded on the project website as well.

PPPresentation of the project results and impact

The project coordinator prepared for the final conference a PPP which will use by the partners for further presentations of the project outcomes.

Continuation of use the project results and especially the survey findings is envisaged in the following EURAXESS and FP 7 projects like EURAXESS TOP II and etc.
